DX Transformer Development: Engineer IT Level

Organized by Thai-German Institute under the support of AEM-METI Economic and Industrial Cooperation Committee (AMEICC)

PROFILE

Hello, my name is Bantphoon. I am passionate about learning and creating new ideas, with strong interests in web development, application design, and IT systems. I have experience in IT infrastructure, server management, and working with SCADA systems in industrial environments. I am committed to problem-solving, continuous learning, and turning ideas into practical solutions.

WORK EXPERIENCE

Unipro Manufacturing Co., Ltd.

2022 - PRESENT

Position: IT Engineer

Web & App Developer

- Developed the company's internal website using Next.js
- Built with Next.js and styled using Tailwind CSS
